CS4352.002
Noah Ferenczhalmy, Ty Trlicek, Arnav Jain, Rushil Patel   Team 7

Delegation of Duties

Noah:
- Created the team github
- Implemented favicon, various styling elements, created the design for Authentication setup
- Developed the documentation files for the project

DP6:
- Implemented changes to the homepage of the website
- Updated source and team documents, updated README

Arnav:
- Developed initial concepts for the UI in paper prototypes
- Developed the presentation, primarily focused on new content based on the work of DP4
- Implemented some styling consistency of elements in the prototype

DP6:
- Implemented changes related to events that occur after task completion throughout the website
- Explained task slides for the simple & complex tasks, prototype details

Rushil:
- Developed the presentation, primarily focused on styling and re-formatting old content
- Assisted in debugging various UI elements
- Brought attention to User Test feedback and how it should be addressed

DP6:
- Developed the outline of the presentation.
- Defined the final project scope, delegated duties for DP6

Ty:
- Primary developer of the prototype, interacted with figma
- Implemented 3 tasks collaboratively with team input
- Assisted in debugging various UI elements
- Addressed navigation issues between screens in the prototype

DP6:
- Implemented changes for the task completion process in the website
- Developed Quality arguments slide, consolidated info on which heuristics were fixed during DP6.
